

THE 3905 CENTURY CLUB, INC.
NET REMINDERS
<netname>

This is a Directed Net and stations wishing to communicate must do so through Net Control. The correct way to gain attention from NCS is by saying "Contact" or "Query" never "Break" unless an ACTUAL emergency exists. Please do **not** relay unless requested to do so by Net Control. Both stations are required to ID at least once during the contact.

This net uses Zulu date and time. The correct Zulu date is <currentdate> - the correct Zulu time is <currenttime> - Please Use Zulu date and time on your QSL cards.

Members, please put your 100-point and any other progressive point award numbers on your QSL cards.

Please put both signal reports on your card as a courtesy to Handi-Hams and mobile stations.

Mobile stations need the state they were mobile in on the card.

If you work a club station, put the operator's call on the card.

If a station goes up for grabs and you wish to respond, give only your full call once and only once phonetically.

Mobile and portable stations may identify as such. No additional information should be given at that time.

Is there any Emergency, Priority, or time sensitive traffic?

Are there any officers with announcements?

Are there any direct QSL's?

Ask for additional check-ins at the end of the reminders.
